

## **PRESS RELEASE**

### **Looking for centrifuge tubes and bottles?**

Did you realise that Herolab, the German manufacturer of high quality centrifuges, also offer an exceptionally large range of tubes and bottles suitable for use in any centrifuge?

If not then maybe you are missing out on a range of labware which very competitively priced and has a solution for all your centrifuge needs.

An extensive catalogue which gives a vast amount of information about the consumables that are available can be downloaded from the website. Also on the website at [www.herolab.com](http://www.herolab.com) is a 'call-back' service should you need to discuss your requirements in detail with one of the expert team.

There are many factors that influence the performance characteristics and lifespan of centrifuge consumables. Herolab have endeavoured to produce, within reason, high quality products that will meet the service demands for all systems when used under most laboratory conditions.

The Centrifuge Labware guide gives extensive information regarding product selection information as well as detailing the material characteristics. The guide contains valuable information for anyone working with centrifuges.

Says Herolab: "We have a very large catalogue of tubes and bottles. If you cannot find the product you are looking for our expert team will be happy to guide you".
